

ST TRACKPARTS

**BMW F8X/E9X/E8X Seat Console
Install Guide**

1. Install the bases. The outside base will have the ST logo. And the V shape goes on the front. Use the original mounting bolts.

V Shape

2. Install your seat with side mounts and optional sliders installed. Use the M8x20 buttonhead bolts to install the side mounts to the seat. Optional: Install original seat belt receiver (see next page step 4).

3. Mount the sliders to the base, or the side brackets directly to the base, using the included M8 bolts, washers and locking nuts.

4. OPTIONAL: If you wish to keep the original seat belt, the consoles come with a mounting bracket to mount your original seat bracket receiver.

5. Enjoy your centered seating position!
